Policy CS5: Carlton-in-Lindrick and Langold

- 1.1 Reference to table 7.9 in the 2009 AMR revealed the extremely low level of housing completions of only 26 houses that have occurred in the preceding six years. Given the minimal level of completions, particularly prior to the 21 dwellings in 2008/2009, it is difficult to judge the realistic level of market demand that is likely to exist. Given these factors, the modest suggested reduction from 4% to 3% of the total housing growth is entirely justified.

9. Have you raised this issue during previous formal consultations? (tick as appropriate)

Yes (at Issues & Options) Yes (at Preferred Options)

No If you have answered 'No', please explain why this issue has not been raised before:

10. With reference to your answer at 8 above, please outline the precise change that you consider to be necessary to make the Core Strategy/Sustainability Appraisal/Proposals Map legally compliant or sound. Please demonstrate *why* this change will make the Core Strategy/Sustainability Appraisal legally compliant or sound.

See Section 8.

11. If your representation is seeking a change to the Core Strategy or Sustainability Appraisal, do you consider it necessary for you to participate at the oral part of the examination or will this written response (to be submitted to the Inspector) be sufficient?
