

Bassetlaw
DISTRICT COUNCIL
— North Nottinghamshire —

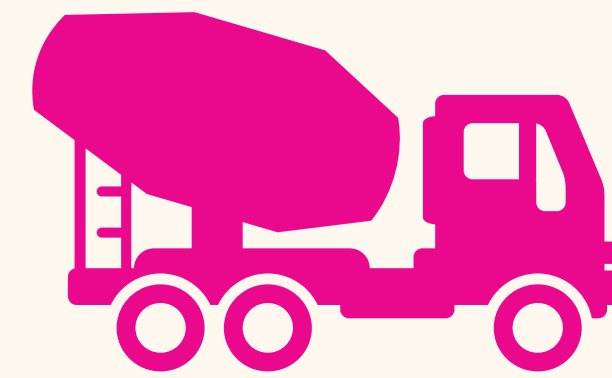

The Draft Bassetlaw Plan: Spatial Strategy: Employment

A total of
5,550 JOBS
need to be created
in **Bassetlaw**
BY 2037

This will require the
development of
108 HECTARES
of employment land

Proposals include the
REGENERATION
of **High Marnham**
former
power station site

Plus
LARGE SCALE SITES
close to transport links

such as
THE A1

OUR VISION

The District will have a diverse and thriving economy with Worksop, Retford, Harworth and Bircotes and Large Rural Settlements acting as employment and service centres for their surrounding rural areas.

The economy will provide access to higher skilled jobs making the District an ideal place in which to work and live. It will also enable and support the growth of small local businesses and large enterprises alike.

Bassetlaw will increase its appeal as a tourist destination, which will in turn boost the visitor economy.

Employment Growth

Bassetlaw's changing and growing economy will be enhanced by:

- ✓ Providing the right type of land in the right locations to attract new businesses.
- ✓ Increasing the amount of higher skilled, better-paid jobs.
- ✓ Encouraging development in the visitor economy to make Bassetlaw a destination.
- ✓ Supporting the growth of small to medium businesses and their supply chains
