ST58 - SAFEGUARDED LAND			
REF214	Historic England	<p>Policy ST58: Safeguarded Land - Historic England has concerns in respect of the approach to the historic environment in relation to the proposals and Policies relating to Peaks Hill Farm and Bassetlaw Garden Village which link to this policy. We note the policy requires proposals to have regard to other policies within the Plan which would include historic environment elements and that provision is welcomed.</p>	<p>Safeguarded land has been designated to support the implementation of new critical or strategic infrastructure or regeneration. These will be subject to review and other policies within the Local Plan. Any change to these designations will also be subject to public consultation through a review of the Local Plan.</p>
