

## **MATTER 6 BASSETLAW LOCAL PLAN EXAMINATION**

Danielle Troop – R. Troop and Son

November 4<sup>th</sup> 2022

**6.1 NO. There is not an appropriate mixture of sites in the plan. Rural allocations need to be taken out of the Neighbourhood Plan process – where most only have windfall policies – and be lodged instead in the Local Plan proper, as concrete allocations in their own right. That way, the exceedingly divisive and lengthy NP process can be avoided. Please find attached the 2017 SHLAA which for some reason, has not been used, even though it demonstrates a sufficient volume of land across the district. It is understood that it “fell” as part of the functional cluster model. We need to revert to that model.**
