Main Modifications – Chapter 5: A Spatial Strategy for Bassetlaw

The modifications below are expressed either in the conventional form of ~~strikethrough~~ for deletions and underlining for additions of text, or by specifying the modification in words in *italics*.

The page numbers and paragraph numbering below refer to the submission local plan, and do not take account of the deletion or addition of text.

Ref	Page	Policy/ Paragraph	Main Modification
MM5.1	29	5.1.11	<i>In the second sentence:</i> identifies an employment need for 2018-2038 of 196.7 ha. <u>Between 2018-2020 3.5ha of land was developed at the General and Larger Unit Employment Sites. This leaves a residual employment need of 193.2ha for the plan period.</u>
MM5.2	29-30	5.1.12	<i>Change to:</i> <u>The District's employment land supply has a significant number of planning permissions for B1, B2 and B8 use. All are well progressed and are being actively promoted.</u> The Bassetlaw Housing and Economic Development Needs Assessment Addendum 2022 ²⁰²⁰ ⁷ therefore recommends a completions trend scenario (rather than a demand led scenario) , which considers job assumptions assessed on a site by site basis <u>for B2 and B8 use and a demand led scenario for B1 use (now within the E (g) class)</u> ...
MM5.3	30	5.1.13	<i>In the first and second sentence:</i>

Ref	Page	Policy/ Paragraph	Main Modification
			The evidenced completions trend scenario approach in the Further Employment Note, 2023 indicates that up to 9,852 <u>9,699</u> jobs ⁷ could be generated overall in the plan period. Within this scenario, 5,996 <u>5,589</u> jobs are...
MM5.4	30	5.1.16	<i>Change to:</i> and/or future property market requirements, is realistic and reflects market signals. At 31 March 2022 <u>2023</u> , 50,005 sqft of employment floorspace <u>40.3ha of employment land</u> had been completed ⁸ on the General and Larger Unit Employment Sites, 56.4 ha of such employment land is under construction, whilst a further 132.4 ha <u>whilst the remaining 163.7ha has planning permission for B Class employment.</u> <u>The supply therefore fully meets the employment need over the plan period.</u>
MM5.5	30	5.1.15	<i>In the third and fourth sentence:</i> the Plan builds in flexibility by providing for a buffer in employment terms of around 10%. This allowance is designed to accommodate windfall sites that are likely to come forward in the plan period, such as in existing employment ...
MM5.6	31	5.1.19	<i>In second sentence:</i> that 3,856 <u>4,110</u> jobs could ...
MM5.7	31	5.1.22	<i>In first sentence:</i> The housing requirement of 582 <u>540</u> dwellings per annum in this Plan (40,476 <u>9,720</u> dwellings by 2038) has therefore been set at a level to support the level of jobs growth (9,852 <u>9,699</u> jobs) as identified in the Bassetlaw Housing and Economic Development Needs Assessment Addendum 2022 <u>Further Employment Note 2023</u> ⁷ .
MM5.8	31	5.1.23	<i>Change to:</i> requirement, delivery needs to remain at the high levels experienced over the last few years, averaging 644 dwellings per annum⁸ over the past five years. there will be a degree of frontloading – this reflects the extent to which the Council has granted planning permission for new housing development in recent years and the level of completions experienced in the District since the start of the plan period Sites which currently benefit from planning permission will continue to come forward in the early years of the plan (from adoption) supported by a supply of small sites. It is expected that those sites currently with an outline permission will then come on stream along with the site allocations in this Plan to ensure the housing requirement is met over the plan period.
MM5.9	31	5.1.24	<i>In the second sentence:</i> of 5 10%) will be added to the 5 year housing land supply within this Plan to ensure it is sufficiently flexible and robust. when calculating the five year housing land supply.
MM5.10	32	5.1.23	<i>In the second sentence:</i>

Ref	Page	Policy/ Paragraph	Main Modification																		
			The Council will continue to engage with its partners, developers and public sector organisations <u>annually</u> in order to ensure build out rates over the plan period and completions maintain <u>this an appropriate level consistently</u> to meet the full objectively assessed housing need <u>over the plan period</u> .																		
MM5.11	32	5.1.26	<i>In last sentence:</i> From 2020 and for every year throughout the plan period, the housing trajectory demonstrates at least a five year supply of deliverable housing land. The trajectory shows that from the point the Local Plan is expected to be adopted (2023), there will be a five year supply of housing land.																		
MM5.12a	32	5.1.27	<i>Change to:</i> Housing land is provided in accordance with the settlement hierarchy as identified in Policy ST1. Taking into consideration past delivery rates, analysis of historic trends and consideration of future windfall sources the Council considers a windfall allowance of 400 <u>76</u> dwellings per annum (1,200 <u>912</u> during the plan period) to be justified. This has been identified from 2026-2027 onwards, and included in the housing supply.																		
MM5.12b			<i>Add new paragraph after 5.1.27:</i> <u>Additionally for the first three years of the plan period post adoption a small sites allowance has been identified. This is designed to capture sites of 9 dwellings or less with extant planning permission. Taking into account the number of extant permissions, the Council considers an allowance of 182 dwellings per annum (546 dwellings) to be appropriate to 2025-26.</u>																		
MM5.12c	32	Figure 7	<i>Change to:</i> <table border="1"> <thead> <tr> <th>Housing supply as at 31 March 2022 3</th> <th>No of dwellings</th> </tr> </thead> <tbody> <tr> <td>Housing Completions (1 April 2020 to 31 March 2023)</td> <td>4,544 <u>2,587</u></td> </tr> <tr> <td>Committed major sites with outstanding extant planning permission on both large and small sites as of 31 March 2023</td> <td>5,995 <u>4,281</u></td> </tr> <tr> <td>Outstanding 'Made' Neighbourhood Plan allocations without planning permission</td> <td>438 <u>244</u></td> </tr> <tr> <td>New Local Plan Allocations</td> <td>2,742 <u>2,387</u></td> </tr> <tr> <td>Proposed Allocations in Worksop Central DPD</td> <td>635 <u>238</u></td> </tr> <tr> <td>Windfall allowance</td> <td>1,200 <u>912</u></td> </tr> <tr> <td>Small sites allowance</td> <td>546</td> </tr> <tr> <td>TOTAL SUPPLY 2020 – 2038</td> <td>12,554 <u>11,195</u></td> </tr> </tbody> </table>	Housing supply as at 31 March 2022 3	No of dwellings	Housing Completions (1 April 2020 to 31 March 202 3)	4,544 <u>2,587</u>	Committed major sites with outstanding extant planning permission on both large and small sites as of 31 March 202 3	5,995 <u>4,281</u>	Outstanding 'Made' Neighbourhood Plan allocations without planning permission	438 <u>244</u>	New Local Plan Allocations	2,742 <u>2,387</u>	Proposed Allocations in Worksop Central DPD	635 <u>238</u>	Windfall allowance	1,200 <u>912</u>	Small sites allowance	546	TOTAL SUPPLY 2020 – 2038	12,554 <u>11,195</u>
Housing supply as at 31 March 2022 3	No of dwellings																				
Housing Completions (1 April 2020 to 31 March 202 3)	4,544 <u>2,587</u>																				
Committed major sites with outstanding extant planning permission on both large and small sites as of 31 March 202 3	5,995 <u>4,281</u>																				
Outstanding 'Made' Neighbourhood Plan allocations without planning permission	438 <u>244</u>																				
New Local Plan Allocations	2,742 <u>2,387</u>																				
Proposed Allocations in Worksop Central DPD	635 <u>238</u>																				
Windfall allowance	1,200 <u>912</u>																				
Small sites allowance	546																				
TOTAL SUPPLY 2020 – 2038	12,554 <u>11,195</u>																				
MM5.12d	32	5.1.28	<i>Change to:</i> Figure 7 shows that the Plan provides housing land for 12,554 <u>11,195</u> dwellings over the plan period. Using the full objectively assessed need of 582 <u>540</u> new homes per year, the total housing requirement is a minimum of 10,476 <u>9,720</u> dwellings for the 18 years from 2020-2038.																		

Ref	Page	Policy/ Paragraph	Main Modification
MM5.12e	32	5.1.29	<i>In the first, second and third sentence:</i> the Plan proposes to allocate sites to provides close to an 86% <u>86%</u> supply buffer above the objectively assessed housing need excluding the windfall allowance. Adding the windfall allowance of 1,200 <u>912</u> dwellings increases the buffer to 1715% <u>1715%</u> . The buffer allows for an additional <u>robust</u> housing supply in Bassetlaw to be maintained...
MM5.13	33	5.1.31	<i>In the first and second sentence:</i> Policy ST1 identifies a requirement to deliver a minimum of 24 <u>49</u> new <u>permanent</u> pitches for Gypsy and Travellers by 2037-2029 <u>38</u> , with a further 247 pitches up to provided by <u>2028-2038</u> <u>29</u> . The Bassetlaw Gypsy and Traveller Accommodation Needs Assessment Update, 2022 ¹² notes that the Local Plan can make provision <u>meet identified needs</u> for a five year supply <u>the first ten years of the plan</u> on existing authorised Gypsy and Traveller sites or by establishing or re-establishing pitches within existing sites; and/or...
MM5.14a	34	5.1.36	<i>Change to:</i> Using the objectively assessed housing need, the total requirement is a minimum of 40,476 <u>9,720</u> dwellings for the 18 years from 2020-2038. The Housing Trajectory in Appendix 3 shows that as at 31 March 2022 3 <u>23</u> almost <u>650%</u> of the housing requirement is on committed <u>major and small</u> sites with extant planning permissions, and <u>2.5%</u> of the requirement is on sites allocated in made neighbourhood plans, but without planning permission.
MM5.14b	34	5.1.37	<i>In first sentence:</i> hierarchy; with Worksop <u>the Main Towns</u> absorbing about a third <u>70%</u> of the growth; a large part already has <u>planning permission.</u>
MM5.14c	34	5.1.39	<i>Change to:</i> The housing supply is 12,551. Following consideration of completions since the start of the plan period to the 31 March 2022 <u>2023</u> , existing sites with extant <u>extant</u> planning permission, sites allocated in made neighbourhood plans, <u>some sites within Worksop Central</u> and the windfall allowance, the residual Local Plan allocations, for the period 2020-2038 is therefore 3,377 <u>2,387</u> new homes.
MM5.14d	34	5.1.40	<i>Change to:</i> within the development boundaries <u>of Worksop and Retford</u> , two large urban extensions are identified; on the northern edge of Worksop at Peaks Hill Farm for 1,080 <u>655</u> dwellings; and, at Ordsall South in Retford for 890 <u>960</u> dwellings.
MM5.14e	34	5.1.43	<i>Change to:</i> As can be seen from Figure 8 below the allocations to meet the residual requirement are largely focused on Worksop and Retford, with 1,970 <u>910</u> new homes in Worksop, 1,332 <u>1,402</u> in Retford, and 75 in the Large Rural Settlement of Tuxford.

Ref	Page	Policy/ Paragraph	Main Modification																																																																																										
MM5.14f	34	5.1.44	<p><i>Change to:</i></p> <p>There will be no new allocations in Harworth & Bircotes as a consequence of the 2,006 <u>1,839</u> existing deliverable commitments. This includes an outline planning permission (September 2021) for a re-profiled Harworth Colliery site. The consented 1,300 outstanding <u>1090</u> dwellings is in addition to the consented phases under construction/ those delivered. Based upon evidence from the developers it is considered that at least 1,133 dwellings from this permission <u>these dwellings</u> are deliverable within the Plan period, thereby adding to the District's housing supply.</p>																																																																																										
MM5.14g	35	Figure 8	<p><i>Change to:</i></p> <table border="1"> <thead> <tr> <th></th> <th>Completions 1 April 2020- 31 March 2022<u>3</u> on major and small sites</th> <th>Extant planning permissions on major sites as at 31 March 2022<u>3</u></th> <th>Extant planning permissions on small sites as at 31 March 2022<u>3</u></th> <th>Made neighbourhood plan allocations without planning permission from 1 April 2020</th> <th>Local Plan site allocations</th> <th>Deliverable sites in the emerging Worksop Central DPD</th> <th>Total growth</th> <th>% growth</th> </tr> </thead> <tbody> <tr> <td>Worksop</td> <td>360 <u>685</u></td> <td>4,144 <u>616</u></td> <td>111</td> <td>0</td> <td>4,970 <u>910</u></td> <td>238</td> <td>3,444 <u>2,560</u></td> <td>30.3 <u>25.0</u></td> </tr> <tr> <td>Retford</td> <td>225 <u>397</u></td> <td>745 <u>452</u></td> <td>80</td> <td>0</td> <td>1332 <u>1,402</u></td> <td>0</td> <td>2,272 <u>2,331</u></td> <td>20.0 <u>22.6</u></td> </tr> <tr> <td>Harworth & Bircotes</td> <td>493 <u>364</u></td> <td>2,006 <u>1,832</u></td> <td>7</td> <td>0</td> <td>0</td> <td>0</td> <td>2,499 <u>2,203</u></td> <td>49.4 <u>21.4</u></td> </tr> <tr> <td>Large Rural Settlements</td> <td>498 <u>346</u></td> <td>4,063 <u>786</u></td> <td>110</td> <td>499 <u>95</u></td> <td>75</td> <td>0</td> <td>4,535 <u>1,412</u></td> <td>43.5 <u>13.7</u></td> </tr> <tr> <td>Small Rural Settlements</td> <td>538 <u>762</u></td> <td>4,053 <u>595</u></td> <td>209</td> <td>235 <u>149</u></td> <td>0</td> <td>0</td> <td>4,826 <u>1,715</u></td> <td>46.4 <u>16.7</u></td> </tr> <tr> <td>Other Villages & Countryside</td> <td>27 <u>33</u></td> <td>44 <u>0</u></td> <td>31</td> <td>4 <u>0</u></td> <td>0</td> <td>0</td> <td>75 <u>64</u></td> <td>0.66 <u>0.6</u></td> </tr> <tr> <td>TOTAL</td> <td>4,544 <u>2,587</u></td> <td>5,995 <u>4,281</u></td> <td>548</td> <td>438 <u>244</u></td> <td>3,377 <u>2,387</u></td> <td>238</td> <td>44,354 <u>10,285</u></td> <td>100.00</td> </tr> <tr> <td>Windfall</td> <td>0</td> <td>4,200</td> <td></td> <td>0</td> <td>0</td> <td></td> <td>4,200</td> <td></td> </tr> <tr> <td>TOTAL with windfall</td> <td>4,544</td> <td>7,495</td> <td></td> <td>438</td> <td>3,377</td> <td></td> <td>42,554</td> <td></td> </tr> </tbody> </table>		Completions 1 April 2020- 31 March 2022 <u>3</u> on major and small sites	Extant planning permissions on major sites as at 31 March 2022 <u>3</u>	Extant planning permissions on small sites as at 31 March 2022 <u>3</u>	Made neighbourhood plan allocations without planning permission from 1 April 2020	Local Plan site allocations	Deliverable sites in the emerging Worksop Central DPD	Total growth	% growth	Worksop	360 <u>685</u>	4,144 <u>616</u>	111	0	4,970 <u>910</u>	238	3,444 <u>2,560</u>	30.3 <u>25.0</u>	Retford	225 <u>397</u>	745 <u>452</u>	80	0	1332 <u>1,402</u>	0	2,272 <u>2,331</u>	20.0 <u>22.6</u>	Harworth & Bircotes	493 <u>364</u>	2,006 <u>1,832</u>	7	0	0	0	2,499 <u>2,203</u>	49.4 <u>21.4</u>	Large Rural Settlements	498 <u>346</u>	4,063 <u>786</u>	110	499 <u>95</u>	75	0	4,535 <u>1,412</u>	43.5 <u>13.7</u>	Small Rural Settlements	538 <u>762</u>	4,053 <u>595</u>	209	235 <u>149</u>	0	0	4,826 <u>1,715</u>	46.4 <u>16.7</u>	Other Villages & Countryside	27 <u>33</u>	44 <u>0</u>	31	4 <u>0</u>	0	0	75 <u>64</u>	0.66 <u>0.6</u>	TOTAL	4,544 <u>2,587</u>	5,995 <u>4,281</u>	548	438 <u>244</u>	3,377 <u>2,387</u>	238	44,354 <u>10,285</u>	100.00	Windfall	0	4,200		0	0		4,200		TOTAL with windfall	4,544	7,495		438	3,377		42,554

MM5.14h	36	5.1.48	<p><i>Change to:</i></p> <p>Over the past three years, Worksop has experienced high levels of housing growth, with areas such as Gateford Park seeing over 250 <u>300</u> housing completions. As can be seen from Figure 8, at 31 March 2022<u>3</u> over 1,450 <u>1,412</u> of the expected housing growth in Worksop has been delivered, or is on committed sites; with the remainder to come from new allocations. Consequently, there is a requirement to allocate land for a further minimum of 1,970 <u>1,148</u> dwellings are identified in Worksop; 910 are allocated by this Plan with further <u>This includes 725 dwellings</u> land for housing to be delivered through the Worksop Central Development Plan Document¹⁶⁸. Approximately 90 <u>238</u> of these dwellings are identified in the trajectory, a further 145 dwellings</p>																																																																																										

Ref	Page	Policy/ Paragraph	Main Modification
			have either been delivered or gained planning permission, so are included in the supply as completions or commitments.
MM5.14i	36	5.1.50	<i>Change to:</i> Over the past three years, Retford has seen strong housing growth with about 32597 <u>32597</u> dwellings completed (2019 <u>20</u> -2022 <u>3</u>). As at 31 March 2022 <u>3</u> , 940-532 <u>940-532</u> of the expected housing growth in Retford has already been delivered or is on committed sites with extant planning permission. The remainder of the growth will be delivered from new allocations in the Plan providing for about 4,332 <u>1,402</u> additional dwellings.
MM5.14j	36	5.1.52	<i>Change to:</i> years (2019 <u>20</u> -2022 <u>3</u>), Harworth & Bircotes has seen additional housing growth with over 36964 <u>36964</u> homes being delivered. A significant amount of land is also committed with planning permissions for over 2,006 <u>1,839</u> homes, and 193 homes were completed in 2020-2022. On that basis...
MM5.14k	37	5.1.55	<i>In first sentence:</i> will deliver about 1,535 <u>1,535</u> dwellings over the plan period...
MM5.14l	37	5.1.55	<i>In last sentence:</i> During 2020-2022 <u>3</u> , 498 <u>346</u> dwellings were delivered in the Large Rural Settlements.
MM5.16a	37	5.1.56	<i>Change to:</i> The spatial strategy, together with Policy ST2, identifies that a 20% minimum growth requirement in the for each Large Rural Settlements should not exceed the number of dwellings in these settlements by more than 20%. <u>To ensure that they retain their identity and distinctiveness, and so that development is in keeping with their size, the level of services and infrastructure capacity, Policy ST2 sets out the approach to be taken to appropriate infill development or should a Neighbourhood Plan wish to promote more growth than identified by Policy ST1.</u>
MM5.14m	37	5.1.58	<i>In second and last sentence:</i> Considering the large number of settlements in this tier of the hierarchy it is expected that about 1,826 <u>1,826</u> dwellings of the District's housing requirement will be delivered from the Small Rural Settlements during the plan period. Since the 1 April 2020 the Small Rural Settlements have contributed significantly to boosting housing delivery in Bassetlaw with 538 <u>762</u> completions.
MM5.16b	37	5.1.59	<i>Change to:</i> The spatial strategy and Policy ST2 identifies that a 5% minimum growth requirement to promote sustainable development, growth should not exceed the number of dwellings in eligible Settlements by more than should 5%. The approach taken to additional growth is managed by Policy ST2 in the same way as for Large Rural Settlements. The level of growth will also be monitored to inform the preparation of neighbourhood plans.

MM5.21a	40	5.2.2	<p><i>Change to:</i></p> <p>As a rural District, Bassetlaw's settlements are all varying sizes and have varying levels of access to local services and public transport³¹⁹. The impact upon infrastructure capacity and the ability for rural settlements to expand to accommodate the needs generated by new development also varies. <u>On that basis, eligible settlements have been defined (in the Rural Settlement Study Update 2022 2021¹⁹) categorises all rural settlements by their size, role and function – in terms of the level of services, and facilities public transport accessibility and infrastructure they provide to their community and their catchment. The more sustainable rural settlements are identified as resulting in the identification of Large and Small Rural Settlements and t</u>The spatial strategy recognises that these <u>Large and Small Rural Settlements</u> should be allowed to grow appropriately in order to maintain rural vitality. But Policy ST2 also ensures that this is sensitive to place, ensuring that each rural community retains its identity and distinctiveness, built form and character, and is in keeping with each settlement's size, scale of services and infrastructure capacity.</p>
MM5.21b			<p><i>Insert new paragraph after 5.2.2:</i></p> <p><u>Other settlements are considered to be in the countryside by Policy ST1 and Policy ST2.</u></p>
MM5.22a	41	5.2.6	<p><i>Change to:</i></p> <p>Policy ST1 identifies that within identified development boundaries eligible Large Rural Settlements will collectively deliver approximately 1,535 <u>1,412</u> new dwellings and eligible Small Rural Settlements will collectively deliver approximately 1,839 <u>1,715</u> new dwellings over the plan period. <u>This growth will be apportioned via an individual minimum housing requirement for each settlement. This requirement has two functions:</u></p> <ol style="list-style-type: none"> a) <u>It contributes towards the District's overall housing requirement in Policy ST1; and</u> b) <u>For the purposes of Neighbourhood Planning, it provides each settlement with a housing requirement for designated neighbourhood areas as required by national policy.</u>

Ref	Page	Policy/ Paragraph	Main Modification
MM5.22b	41	5.2.5 & 5.2.6	<p><i>Add new paragraph after 5.2.6:</i></p> <p>The identified housing requirement for each eligible settlement is calculated from the number of dwellings within each Parish (as of 13 August 2018 <u>1 April 2020</u> – when the data was collected). <u>A percentage uplift has then been applied to each settlement.</u> To promote sustainable development, <u>in the rural area, the percentage uplift for each settlement category has been set at:</u> Policy ST2 requires that growth should not exceed the number of dwellings in eligible settlements by:</p> <ul style="list-style-type: none"> • 20% <u>growth</u> for eligible Large Rural Settlements; and • 5% <u>growth</u> for eligible Small Rural Settlements.
MM5.22c			<p><i>Add new paragraph after 5.2.6:</i></p> <p><u>The percentage uplift differs for Large and Small Rural Settlements. This reflects the varying sustainability credentials that exist between these categories in the settlement hierarchy in terms of their size, their form and their ability to accommodate growth.</u></p>
MM5.23	41	5.2.7	<p><i>Change to:</i></p> <p>A blanket growth requirement for all the rural settlements is not considered appropriate. In some cases, to ensure consistency with other Local Plan policies and/or national policy⁴, less growth would be more in some settlements is considered appropriate. For instance, where the majority of a settlement is subject to high flood risk, no growth housing requirement is proposed identified. If in exceptional circumstances, it can be demonstrated these constraints can be satisfactorily overcome, consistent with other policies in this Local Plan, proposals should comply with the <u>growth housing</u> requirement for the relevant eligible settlement, subject to the provisions of Policy ST2.</p>
MM5.24	41	5.2.8	<p><i>Change to:</i></p> <p>The percentage growth requirement uplift for each eligible settlement is identified by Policy ST2 (Part 1, Column B) as an overall dwelling number. <u>It is also the housing requirement for each identified settlement within tThe Council's Rural Monitoring Framework (at www.bassetlaw.gov.uk), which provides a living framework for the rural neighbourhood plan groups, pParish eCouncils and house builders of the residual requirement in each eligible settlement .</u> to ensure that no settlement is overburdened by growth. A Rural</p>

Ref	Page	Policy/ Paragraph	Main Modification
			Settlement Implementation Guide²⁹ provides further details on the application of Policy ST2, including monitoring for decision makers, applicants and communities.
MM5.25	42	5.2.9	<i>In first sentence:</i> made nNeighbourhood pPlans (since 1 April 2020) and also from unallocated sites in appropriate locations which meet the criteria set out in Policy ST2.
MM5.26a	42	5.2.10 & 5.2.11	<i>Change to:</i> Where eligible settlements have met their identified requirement, additional residential development should reflect local character, so small-scale growth may be most appropriate will be considered if it is located within a development boundary, or, within the built form of a settlement (where there is no development boundary), or where a site is being promoted through a Neighbourhood Plan. Such growth will only be appropriate where it can be demonstrated there is community support. The District has a strong tradition of delivering successful community-led planning through the neighbourhood planning process. Neighbourhood plans are considered to be the most appropriate mechanism to demonstrate community support to justify a different level or distribution of growth within a designated neighbourhood area that reflects local growth aspirations, settlement character and local housing needs. Parts 2 and 3 of Policy ST2 provides the basis for consideration of such proposals.
MM5.26b	42	5.2.12	<i>Delete paragraph:</i> Alternatively, in the absence of a Neighbourhood Plan, developers can demonstrate community support through a developer led pre-application consultation, undertaken in accordance with the Council's Statement of Community Involvement 2020 and the Rural Settlement Implementation Guide. This should demonstrate that the community response, including that for the relevant parish/town council, is positive overall. A developer-led consultation exercise will be encouraged where made Neighbourhood Plans are more than two years old (from the date of adoption) to indicate the community's response.
MM5.27	42	5.2.13	<i>Change to:</i> In addition, Part 3 of Policy ST2 provides the framework within which proposals for housing development within the countryside (outside of settlements) will be considered. To avoid the development of isolated homes in the countryside Part 3 identifies the exceptional circumstances whereby residential development may be appropriate. This includes for rural workers accommodation, or for rural exception sites, may also come forward outside of eligible settlements, but these should demonstrate a need for affordable housing identified by as well as other uses consistent with national policy and Policy ST29 this Local Plan.
MM5.28	42	5.2.14	<i>Change to:</i> Proposals for rural economic development should refer to Policy ST11 and the new strategic policy.

Ref	Page	Policy/ Paragraph	Main Modification																																																																																						
MM5.29a	42-43	ST2	<p><i>In Part 1:</i> Large Rural Settlements and Small Rural Settlements, as defined in the settlement hierarchy in Policy ST1, will experience residential growth <u>over the plan period</u> to support their role and function through <u>the following minimum housing requirements for each individual settlement</u>. Housing growth will be in the form of <u>completed sites, sites with planning permission (committed housing development), site allocations in this Local Plan, and/or from site allocations in made neighbourhood plans or unallocated sites which meet the criteria in Part 2 below</u>. MM5.34m	50	ST6	<i>Delete Part 3 k):</i> give consideration to utilising the River Trent and existing railway line for the transportation of construction and waste materials to and from the site during redevelopment.

Main Modifications – Chapter 6: Delivering Economic Prosperity

The modifications below are expressed either in the conventional form of ~~strike through~~ for deletions and underlining for additions of text, or by specifying the modification in words in *italics*.

The page numbers and paragraph numbering below refer to the submission local plan, and do not take account of the deletion or addition of text.

Ref	Page	Policy/ Paragraph	Main Modification
MM6.1	54	6.1.10	<i>Change to:</i> the District's employment need for 2018 <u>20</u> -2038 (196 <u>3.72</u> ha) ⁴ , including a buffer in employment terms of around <u>10%</u> . Additionally, a Strategic Employment Site is identified to meet sub-regional/regional logistics needs. Totalling 304.3 <u>311.9</u> ha, these make up the District's designated employment land portfolio.

Ref	Page	Policy/ Paragraph	Main Modification
MM6.2	54	6.1.13	<i>Add new last sentence:</i> <u>This is evidenced by employment development which has been completed at Manton Wood (13.8ha), Snape Lane (17.8ha) and at Symmetry Park (13.8ha) since the start of the plan period.</u>
MM6.3	54	6.1.15	<i>Change to:</i> The Housing and Economic Development Needs Assessment Addendum 2022 ⁴⁵ identifies the residual employment need for the Plan period (2020-2038) as 183.2 <u>193.2ha</u> ; <u>Policy ST7 identifies nine site allocations (205.5ha) for employment use over the plan period totalling 205.8ha, therefore the supply within Policy ST7 meets identified needs for general employment, deducting completions at Manton Wood (13.9ha). Additionally, as at 31 March 2022, a further 42ha at Snape Lane, Harworth and 14.4ha at Symmetry Park, Harworth is under construction.</u>
MM6.4	55	6.1.18	<i>In the first sentence:</i> only consider of non employment development on the site allocations in exceptional circumstances - it is the Council's intention to protect General and Larger Unit Employment Sites from non-employment uses ...
MM6.5			<i>Add new paragraph after 6.1.19:</i> <u>Policy ST7 allocates Apleyhead Junction as a strategic employment site to meet an evidenced need for regional/sub-regional logistics. So, it is considered to be additional to the District's general employment provision set out in Policy ST7, Part 2.</u>
MM6.6	56	6.1.26	<i>Change to:</i> Policy ST7 aims to capitalise on this opportunity <u>evidenced need</u> , by allocating site SEM001: Apleyhead Junction. The 118ha as a site is capable of accommodating a sub regional/regional need for large scale logistics only within the property market area over the plan period. The site is considered to be sub-regionally unique; capable of delivering-up to 4.75m sqft <u>440,175sqm</u> of employment space, and the widest range of logistics occupier needs including the largest floorspace and site requirements in the market, as well as meeting the distinct locational requirements of the logistics industry - namely accessibility to the strategic road network and a local labour market. <u>It is also able to support the role of the Main Towns and bring significant economic benefits to the District by widening the employment offer in terms of job opportunities and/or skills involved, thereby supporting the Council Plan's economic priorities¹.</u>
MM6.7	57	6.1.28	<i>Change to:</i> As a sub-regional/regional site, it is vital that <u>the</u> economic benefits associated with Apleyhead are not lost from the property market area. Policy ST7 therefore seeks to ensure that proposals should reinforce rather than adversely impact delivery of relevant economic growth strategies and adopted Local Plans. On that basis, ongoing Duty to Cooperate confirms that partner authorities are accepting supportive of Apleyhead as a

Ref	Page	Policy/ Paragraph	Main Modification
			<u>strategic logistics site because the site is capable of contributing to meeting location capable of addressing an identified need for large scale sub-regional/regional logistics.</u>
MM6.8a	57		<i>Add new paragraph after 6.1.28:</i> <u>Policy ST7 recognises that at the Strategic Employment Site there may be a limited number of employment uses that fall outside of the B8 class that could be considered genuinely complementary to the effective functioning of a strategic logistics site.</u>
MM6.8b	57		<i>Add new paragraph after 6.1.28:</i> <u>In such cases, a supporting statement should clearly demonstrate that the proposed use is complementary to the primary use of the site by indicating the functional requirement for the proposal and that the proposal is clearly smaller in scale and clearly ancillary to the primary use.</u>
MM6.8c	57		<i>Add new paragraph after 6.1.28:</i> <u>It is important that such uses do not, individually and cumulatively, dilute the primary function of the wider site. As such, the development must not undermine the character and function of Apleyhead Junction and will be expected to consider the operation of proposed and existing uses in terms of noise, dust, vibration, smell, operating hours, health and safety, and highways impact.</u>
MM6.9a	57	ST7	<i>In Part 1:</i> Employment Site identified by Part 2 of this policy in this ...
MM6.9b	58	ST7	<i>In Part 2:</i>

MM6.15	61	6.4-6.5	<i>Change Existing Employment Sites to Existing Employment Sites.</i>
MM6.16	61	6.4.2	<i>In last sentence:</i> <u>areas within the Main Towns and Large Rural Settlements and should be...</u>
MM6.17	61	6.4.3	<i>Change to:</i> This approach reinforces the spatial strategy by protecting sites in the Main Towns settlements where the majority of new housing and services is promoted. In the rural area, sites in the Large Rural Settlements make provision for local businesses and meet general employment needs, whilst existing employment sites in the Small Rural Settlements and the rural area will also be protected where they meet a strategic need. This approach should ensure that businesses can continue to operate or expand with confidence over the plan period.
MM6.18a			<i>Add new paragraph after 6.4.3:</i> <u>Policy ST10 also protects Rural Employment Sites that lie outside the development boundary or built-up area because they meet local employment needs or have specific locational requirements that justify their rural location.</u>
MM6.18b	62	6.4.4	<i>Change to:</i> While it is the intention of Policy ST10 to protect Existing and Rural Employment Sites for identified employment uses. On that basis, development within the Existing Employment Sites will consider only be supported development for uses that are not within the E(g), B2 and B8 Use Classes, these will only be supported in exceptional circumstances where the provisions of Part 4 of Policy ST10 apply. as it is the intention to protect Existing Employment Sites from non-identified employment uses.

Ref	Page	Policy/ Paragraph	Main Modification
MM6.18c			<i>Add new paragraph after 6.4.4:</i> <u>The Rural Employment Sites are located within the countryside. For sustainability reasons, the local plan priority in the rural area is to direct Class E(g) uses – those uses which can be carried out in a residential area - to Large or Small Rural Settlements. Within the Rural Employment Sites, Policy ST10 will consider development for non B2/B8 and non E(g) uses where the provisions of Part 2 apply in order to ensure that businesses can continue to operate or expand with confidence over the plan period.</u>
MM6.19	62	6.4.5	<i>Delete paragraph:</i> Offices, research and development and light industrial uses now fall under use class E (with retail and other main town centre uses) making it easier to change use between uses within this broad use class without the need for planning permission. This could undermine the Local Plan objective to protect the retailing function and vibrancy of the town centres. A proliferation of retail uses on existing employment sites will therefore be resisted through use of planning conditions.
MM6.20	62	6.4.6	<i>In first sentence:</i> sites, or in the rural area is addressed by Policy ST11 <u>and in the new strategic policy.</u>
MM6.21a	62	ST10	<i>In Part 1:</i> use classes or for small-scale ancillary uses required to support <u>continue to provide for the employment development needs of the District:</u>
MM6.21b	62	ST10	<i>In Part 1:</i> EES21 Ashvale Road, Tuxford EES22 Lodge Lane, Tuxford EES231 Harrison Drive, Langold EES24 Old Misterton Works, Misterton EES25 Beckingham Ship Yard, Beckingham EES26 Headon Camp, Headon EES27 Chainbridge Lane, Lound EES282 Firbeck Industrial Estate, Costhorpe EES29 Gamston Airfield Business Park
MM6.21c			<i>Add new section after Part 1:</i> <u>The following Rural Employment Sites, as shown on the Policies Map, lie outside a development boundary and/or the built-up area of a Main Town, Large Rural Settlement or Small Rural Settlement and are protected for B2 and B8 use. Proposals for E(g) uses which can be carried out in residential areas are not considered appropriate within a Rural Employment Site in the countryside so will not be supported.</u>

			<u>RES23 Ashvale Road, Tuxford</u> <u>RES24 Lodge Lane, Tuxford</u> <u>RES25 Old Misterton Works, Misterton</u> <u>RES26 Beckingham Ship Yard, Beckingham</u> <u>RES27 Headon Camp, Headon</u> <u>RES28 Chainbridge Lane, Lound</u> <u>RES29 Gamston Airfield Business Park</u>
MM6.21d	63	ST10	<p><i>In Part 3:</i> The change of use or redevelopment of all or part of an Existing Employment Site or other employment land or buildings premises to a non-E(g), B2 or B8 employment use identified in this policy will only be permitted where the proposal accords with Part 1 or Part 2 of this policy where relevant, and where it can be evidenced demonstrated that:</p> <p>a) the land or building is no longer suitable for employment use and there is no realistic prospect of re-use or redevelopment for employment use through comprehensive marketing for the lawful use with registered commercial agents, for a minimum of 12 months, at a reasonable market value that there is no realistic prospect for any continued employment use; and/or</p>
MM6.21e	63	ST10	<p><i>In Part 3 b):</i> the loss of land or buildings would not adversely affect economic growth and employment opportunities in the area the site or building would likely serve the alternative use will facilitate wider economic regeneration benefits that outweigh the loss of employment land or premises; and/or</p>
MM6.21f	63	ST10	<p><i>In Part 3 c):</i> the land or buildings has been appropriately but proportionately marketed without a successful conclusion for a period of not less than 12 months on terms that reflect the lawful use and condition of the premises through</p>

Ref	Page	Policy/ Paragraph	Main Modification
			<u>an appropriate and robust financial assessment that the continued use of the site for employment purposes is no longer financially viable; and/or</u>
MM6.21g	63	ST10	<i>Delete Part 3 d):</i> it is no longer financially viable for the land or building to continue in its existing employment use – an appropriate and robust viability assessment based on realistic assumptions and up-to-date baseline information will be required.
MM6.21h			<i>Add new section after Part 3:</i> <u>All proposals within an Existing Employment Site or Rural Employment Site must be compatible with adjacent land uses and not prejudice the operation, viability or future development of other businesses.</u>
MM6.22	63	6.5.4	<i>In the first sentence:</i> of appropriate buildings premises.
MM6.23	64	ST11	<i>In Part 1:</i> outside established employment sites/allocations...
MM6.24			<i>Add new section after Policy ST11:</i> <u>Development on large brownfield sites in the countryside</u> <u>National policy encourages the re-use of previously developed or brownfield land provided that it does not cause harm to designated biodiversity sites.</u> <u>There are a number of large brownfield sites across the District's countryside that have been the focus of previous economic activity, or remain (or partially remain) in active economic use. While Policy ST11 provides the framework for the re-use and redevelopment of small-scale sites for economic activity in the countryside, this Plan needs to provide guidance on how development and investment opportunities at large brownfield sites with the potential to accommodate development at a strategic scale should be considered.</u> <u>Such sites are outside of the development boundaries/built up areas of settlements and so for the purposes of the spatial strategy, countryside policies apply. On that basis, exceptionally, proposals for development on large brownfield sites in the rural area will be considered where they are consistent with the new strategic policy and other relevant policies in this Plan.</u>

Ref	Page	Policy/ Paragraph	Main Modification
			<p><u>A number of site-specific issues have been identified that need to be addressed at the former Cottam Power station site. These are identified by Policy ST6. As such, growth is not anticipated at the former power station site until beyond this plan period. The provisions of the new strategic policy therefore do not apply to proposals for that site.</u></p> <p><u>The approach taken by the new strategic policy is that the re-use of such sites should be principally for uses that are not and could not be provided for in more sustainable locations in the District, such as within or on the edge of the Main Towns or Large Rural Settlements. Proposals considered by this policy should therefore be in accordance with the spatial strategy in Policy ST1 and in terms of employment use should not undermine the approach taken by the Plan's economic strategy in Policy ST7.</u></p> <p><u>National policy is clear that a careful balance needs to be achieved when assessing large-scale developments on brownfield sites. These sites, such as the former power station sites, can have attributes that are of national, regional or sub-regional importance, such as by providing connectivity to national electricity grid infrastructure, the national rail network or to main rivers.</u></p> <p><u>The new strategic policy seeks to capitalise on these attributes by requiring redevelopment to maximise their locational advantage for complementary uses, such as for renewable energy generation (in accordance with Policy ST51) or for associated employment generating uses. As such, consideration will be given to whether there are strategic economic and/or environmental benefits in utilising large brownfield sites for the use proposed. However, this will need to be balanced against a number of factors; including, but not limited to the impact upon: the character and appearance of an area, the landscape and environment, and also residential amenity.</u></p> <p><u>Such sites tend to be in locations that are some distance away from existing centres of population and activity, so are often not the most sustainable in terms of access and linkages. In these circumstances, and for consistency with national policy, it will be important to ensure that development is sensitive to its surroundings, does not have an unacceptable impact on local roads, taking into account previous use, and maximises any opportunities to make a location more sustainable (for example by improving access on foot, by cycling or by public transport).</u></p> <p><u>It is essential a holistic approach to these large brownfield sites is established to ensure that the various elements and phases of a proposal are brought together in a carefully considered and well thought out manner. This is particularly important given the countryside location of these sites, their accessibility, potential</u></p>

Ref	Page	Policy/ Paragraph	Main Modification
			<p><u>landscape and community impacts and the need for development to minimise any significant harm within these locations.</u></p> <p><u>On that basis, a comprehensive masterplan for the wider site will be required to accompany a proposal. Whilst it is acknowledged that subsequent proposals/phases may alter over time from an initial masterplan, in recognition of the location and scale of development at these large sites, proposals that materially depart from the initial masterplan will require reasoned justification.</u></p> <p><u>A masterplan will need to set out key development principles to ensure certainty on outcomes for key stakeholders, including infrastructure partners and the affected community and will help to ensure that proposals do not prejudice the wider aspirations of the spatial strategy and other relevant policies in this Plan.</u></p> <p><u>Proposals will also be required to identify the jobs assumptions being proposed, as full time equivalents. This information will enable the Council to effectively consider the merits of the proposal in the context of Bassetlaw's Spatial Strategy (Policy ST1) and the employment strategy in Policy ST7.</u></p>

Ref	Page	Policy/ Paragraph	Main Modification
MM6.25			<p><i>Add new strategic policy: Large Rural Brownfield Sites after text outlined in MM6.25:</i></p> <p><u>Large Rural Brownfield Sites</u></p> <ol style="list-style-type: none"> 1. <u>Proposals for the re-use and re-development of large brownfield sites in the countryside that make effective and efficient use of land for economic and/or environmental activity and which are consistent with other relevant policies in this Plan will be supported subject to meeting the following criteria:</u> <ol style="list-style-type: none"> a) <u>The proposal makes provision for an evidenced national, regional or sub-regional economic need;</u> b) <u>The development cannot be reasonably provided elsewhere in the District and does not undermine the aims and objectives of other policies in the Plan;</u> c) <u>The nature of the proposed development will capitalise on the locational attributes of the site to achieve demonstrable economic and/or environmental benefits compared with the current use and condition of the site;</u> d) <u>The scale and nature of the proposal will have no significant adverse impact upon the character of the location, the surrounding landscape, biodiversity or heritage assets;</u> e) <u>The proposal would not lead to significant harm to the amenity of local residents;</u> f) <u>The need to travel by private vehicle has been minimised, and the need for appropriate sustainable transport measures and any highway improvements have been identified;</u> 2. <u>Any non-economic and environmental uses within a large brownfield site will only be supported where it can be demonstrated that it is consistent with Part 1 above and:</u> <ol style="list-style-type: none"> a) <u>There is a clear functional relationship with the primary economic and/or environmental purpose of the site; and</u> b) <u>It is of a scale that is appropriate to that relationship; and</u> c) <u>When considered individually or cumulatively with other existing or consented development on site it would not result in an over-concentration that might affect the function and appearance of the area.</u> 3. <u>All proposals should be supported by a comprehensive masterplan framework for the site consistent with other relevant policies in this Plan. Where a proposal materially departs from an existing masterplan clear justification will need to be provided for the approach.</u>

MM7.61	105	7.14.17	<i>Change to:</i>

Ref	Page	Policy/ Paragraph	Main Modification
			The Retford Transport Assessment, 2024 2022 ²¹ considers the impact of Ordsall South on a number of strategic and local highways junctions in Ordsall, Retford and in the wider area. As a consequence of the increase in traffic expected to be generated by the development, Policy 27 identifies several junctions <u>recognises that highways infrastructure in the locality may require</u> improvements including the A620 Babworth Road / Ordsall Road and at London Road/Whitehouses Road. Contributions to <u>and traffic calming/management schemes in Ordsall Old Village and at Main Road, Eaton will help manage traffic flow through the wider area. The definitive provisions for transport infrastructure will be agreed through the at planning application stage,</u> informed by a detailed Transport Assessment and Travel Plan for the site, undertaken by the promoters, to be agreed with the Local Highways Authority.
MM7.62a	105-106	27	<i>In Part 1:</i> Land at Ordsall South, Retford (106.5ha), as identified on the Policies Map will be developed <u>for a total of 1250 dwellings of which in this plan period for approximately 890</u> 960 dwellings and supporting infrastructure, <u>as identified by the Infrastructure Delivery Plan 2023¹³ will be delivered in this plan period with the balance of housing and a further 360 dwellings and associated infrastructure thereafter as set out in the Infrastructure Delivery Plan⁷</u> as part of a safe, sustainable, quality living environment.
MM7.62b	106	27	<i>In Part 2:</i> Proposals to develop <u>The proposed development on land at Ordsall South will be expected to deliver a scheme in accordance with an agreed comprehensive masterplan framework for the site in accordance consistent with the provisions above and Policy ST58 which makes provision for:</u> Good quality design and <u>reflects</u> local character
MM7.62c	106	27	<i>In Part 2 a):</i> a landscape-led scheme of an appropriate scale, layout, form and materials, with a design that responds visually to topography, aspect and local context, informed by a landscape statement and density plan, which protects and enhances <u>the openness within</u> GG7: Retford South-Eaton Green Gap in accordance with Policy ST38 <u>and maintains sightlines and long open views across the Idle Valley and to Eaton. This should include:</u> i. sensitive use of soft landscaping, such as trees, hedgerows;

MM8.2d	132	ST35	<i>In Part 1 q):</i> and cycle parking that accords with <u>informed by the most up-to-date Nottinghamshire Parking Standards⁵ unless it can be demonstrated that it is not viable or feasible to do so; and ...</u>
MM8.3	134	8.3.7	<i>In the second sentence:</i> <u>Addendums 2020⁹, 2021¹⁰ and 2022¹¹.</u>
MM8.4	134	8.3.8	<i>In the first sentence:</i> <u>2019⁷⁸ and the Landscape Assessment Addendums 2020⁹, 2021¹⁰ and 2022¹¹...</u>
MM8.5	134	ST37	<i>In Part 1 b):</i> the principles of development opportunities identified within <u>the Site Allocations: Landscape Study 2019⁸ and the Landscape Assessment Addendums 2020⁹, 2021¹⁰ and 2022¹¹.</u>
MM8.6a	134- 135	8.4.1-8.4.3	<i>Delete:</i> The countryside and its relationship with the District's settlements contributes to its distinctive character and is highly valued. Whilst supporting suitably located and designed development necessary to facilitate the economic and social well-being of local communities, weight is given to protecting and enhancing the intrinsic character of non-designated landscapes, the countryside and the green/blue infrastructure network from significant harm.

Ref	Page	Policy/ Paragraph	Main Modification
			<p>Many of these landscapes are found between and around Worksop, Retford, Harworth & Bircotes and nearby Large and Small Rural Settlements. Some of these areas are also protected – such as by a Conservation Area or through local environmental designations – giving that landscape added significance.</p> <p>These landscapes help create a sense of place and help manage urban sprawl. In places such as Carlton in Lindrick, landscape characterises the village character as a distinct and separate settlement from the nearby suburban areas of Worksop. Many also provide valuable recreational opportunities through the public rights of way network to the nearby countryside.</p>
MM8.6b			<p><i>After Policy ST37 add new paragraph:</i> <u>In parts of the District, the Main Towns and Large and Small Rural Settlements are located close to one another, particularly in the west of the District. There is a risk that through further development, the separate identity of settlements which positively contribute to their distinctive landscape and historic character, could be lost through physical or visual coalescence.</u></p>
MM8.7	135	8.4.4	<p><i>Change to:</i> At a local level, some made Neighbourhood Plans have identified the importance of landscapes through Green Gaps, Green Buffers or Settlement Breaks as a localised tool to help positively manage design and development quality <u>and prevent settlement coalescence.</u> <u>For example,</u> in places such as Carlton in Lindrick, landscape characterises the village character as a distinct and separate settlement from the nearby suburban areas of Worksop and Langold.</p>
MM8.8	135	8.4.4	<p><i>Change to:</i> Policy ST38 seeks to provide a clear and consistent District-wide approach by providing a strategic policy framework. The use of Green Gaps will provide greater clarity for communities, developers and landowners to appropriately manage development in <u>locally valued landscapes.</u> <u>between settlements in the future.</u></p>
MM8.9	135	8.4.5	<p><i>Change to:</i> <u>Green Gaps refer to land between settlements that have been identified by the Bassetlaw Green Gaps Report 2019¹¹ and the Green Gap Addendum reports 2020^{12,13} as important in helping to define the character of settlements and in shaping the settlement pattern of the district, by providing a clear visual and physical break in the built environment.</u> analyses the sensitivity of the landscape between and around the Main Towns and nearby Large and Small Rural Settlements. Its starting point is †<u>The Bassetlaw Landscape Character Assessment 2009⁷–has classified the District into a number of and its Policy Zones. It identifies the distinctive landscape features of each Zone and provides a set of and Landscape Actions identified by Policy ST37 to</u></p>

Ref	Page	Policy/ Paragraph	Main Modification
			<u>conserve, reinforce, restore and create environments.</u> In particular, Green Gaps support the principles of the Conserve Policy Zone <u>which promote actions that encourage the conservation of established and distinctive features.</u>
MM8.10a	135	8.4.6	<i>Change to:</i> The purpose of identifying Green Gaps is to <u>protect areas of predominantly open and undeveloped land between settlements which are often subject to development pressures. Development on the edge of settlements can reduce the physical extent of Green Gaps and development within them can reduce visual separation between settlements.</u> The purpose of identifying Green Gaps is to <u>protect these areas of land and to conserve and reinforce the structure of the settlement pattern in the district.</u> They may also have other <u>important benefits for local communities as areas with recreation, amenity and/or biodiversity value.</u> help manage the location and scale of development, to protect the setting and character of the relevant settlements and where possible secure townscape/landscape enhancements, particularly in areas directly adjacent to the countryside. As such, Green Gaps are intended to enable high quality development to continue to be proposed in appropriate locations in and adjoining these settlements, but to identify and protect the development of land which is integral to the character and identity of that settlement. As such, the function of each Green Gap may differ slightly to reflect its role, local context and distinctiveness; this should be reflected in the design and development approach taken.
MM8.10b	135	8.4.7-8.4.8	<i>Delete:</i> Green Gaps have therefore been identified in locations where significant development between or around existing settlements could adversely impact the openness, character, function, appearance and therefore the quality of these locally valued landscapes. Policy ST38 ensures that, where it can be demonstrated that appropriate forms of development, including standalone infrastructure schemes evidenced essential by the relevant infrastructure provider for utilities, highways or flood management infrastructure, are designed to sit comfortably within the openness, character, appearance and function of a Green Gap, they will be supported. It is also important that proposals adjoining a Green Gap have regard to their distinctive landscape characteristics to ensure adverse impacts are addressed appropriately.
MM8.10c			<i>Add new paragraph after 8.4.6:</i> <u>As such, Green Gaps are intended to enable appropriate high quality and sensitive development to continue to be proposed, but will ensure that development that adversely impacts on the physical separation of individual settlements or leads to the visual coalescence of settlements will be resisted.</u>

Ref	Page	Policy/ Paragraph	Main Modification
MM8.11	136	8.4.9	<p><i>Change to:</i></p> <p>To ensure the separation of settlements is maintained, proposals within or adjacent to a Green Gap should be accompanied by a landscape statement, including site surveys. This will need to show demonstrate that the individual and cumulative effects of existing and proposed development proposal will not lead to the physical or visual coalescence between settlements, and has considered any adverse effect(s) on the character and appearance of that Green Gap, through for example; the scale, type, siting, density, design and landscaping of new development. Where relevant, proposals will also need to demonstrate how proposals will protect and enhance biodiversity, the green/blue infrastructure network and the environment.</p>
MM8.12a	136	ST38	<p><i>In Part 1:</i></p> <p>To promote the local character and distinctiveness of the Main Towns and nearby Large and Small Rural Settlements, and to reflect the sensitivity of the adjoining landscape quality and character, The following ...</p>
MM8.12b	136	ST38	<p><i>In Part 2:</i></p> <p>Proposals for the development, including the intensification of land, within a Green Gap will only be supported where it can be demonstrated that through a landscape statement, that individually or cumulatively with other existing or planned development, the type, scale, density and design of the proposal will reinforce the landscape qualities of the Green Gap and will not lead to the physical or visual coalescence of individual settlements.</p> <p>a) there are no suitable sites outside of a Green Gap that can meet the needs of the development; or b) it is for critical utilities, highways or flood management infrastructure; and, c) individually or cumulatively with other existing or planned development, the proposal will have a positive impact on the character, appearance, openness and function of the landscape characteristics of the relevant Green Gap. Evidenced by a landscape statement, proposals should:</p> <ol style="list-style-type: none"> i. deliver a high standard of design that positively reflects the landscape qualities of the location and/or settlement involved in accordance with Policy ST37; ii. maintain the separation between relevant existing settlements; iii. create a positive interface between the urban and rural environments; iv. maintain and where practicable enhance recreation and public access opportunities; v. protect and contribute to the enhancement of the District's green/blue infrastructure network and Nature Recovery Network in accordance with Policy ST39 and Policy ST41 respectively
MM8.13a	137	8.5.5	<p><i>In second sentence:</i></p>

Ref	Page	Policy/ Paragraph	Main Modification
			<u>Identified by the Bassetlaw Green Infrastructure Study¹⁴ as valuable assets that provide ‘a coherent, landscape framework that delivers significantly greater value’</u> Policy ST39 <u>seeks to protect their features whilst recognising ...</u>
MM8.13b			<i>Add new paragraph after 8.5.6:</i> <u>The Green Infrastructure Study¹⁴ recognises that the status of green corridors could be increased ‘through expansion and buffering’.</u> As such, Policy ST39 seeks opportunities to maximise the multi-functionality and connectivity of the natural environment to secure the widest achievable benefits for the District.
MM8.14a	137	8.5.7	<i>Change to:</i> <u>On that basis,</u> Policy ST39 identifies the minimum buffer zone for each corridor. <u>The minimum width is measured from the centre point of each corridor.</u> Reflecting their value the buffer zone for main corridors are wider (30m <u>each side of the centre point</u>) than minor corridors (15m <u>each side of the centre point</u>). These are considered to be the minimum width needed for habitats within or adjacent to the corridor to function, for a distinct landscape to be recognised, or to provide functional space for access and recreation. Each buffer zone is measured from the centre point of each corridor.
MM8.14b	138	8.5.8	<i>Change to:</i> that the extent of the buffer zone should be responsive <u>may vary in response</u> to local context, the existing quality and features of the green corridor in that location and the nature of the development proposal. On that basis, <u>major development</u> proposals lying wholly or partly within the buffer zone of a green corridor will be expected to evidence through an Ecological Impact Assessment and/or landscape statement the extent of the buffer zone; <u>these should be proportionate to the type, nature and scape of the proposal.</u> and how <u>The design and layout will make provision for should positively respond to the green/blue infrastructure functions and opportunities that exist in that locality</u> and the activities expected to take place. This could be related to landscape, biodiversity, recreation, movement, and/or drainage.

Main Modifications – Chapter 10: Greening Bassetlaw

The modifications below are expressed either in the conventional form of ~~strikethrough~~ for deletions and underlining for additions of text, or by specifying the modification in words in *italics*.

The page numbers and paragraph numbering below refer to the submission local plan, and do not take account of the deletion or addition of text.

Ref	Page	Policy/ Paragraph	Main Modification
MM10.1	163	10.1.5	<i>In the last sentence:</i> individual sites, <u>along the existing road network</u> , cumulatively across ...
MM10.2	164	10.1.8	<i>In the third sentence:</i> incorporate these <u>relevant</u> standards ...
MM10.3a	164	10.1.10	<i>In the last sentence:</i> Sufficient electric vehicle parking will need to be provided to meet the needs of the development in accordance with the most up to date Nottinghamshire County Council parking standards⁵. The minimum infrastructure requirements for charging electric vehicles is covered by Part S of the Building Regulations.
MM10.3b	164	10.1.11	<i>Delete paragraph:</i> Policy ST50 will require all new development to incorporate appropriate infrastructure to enable connection to an electric vehicle charging point in future. This future proofs the Plan, ensuring that over time, and as technology develops, different charging units can be installed in response to consumer choice and budget.
MM10.4a	164	10.1.12	<i>Change to:</i> <u>Carbon Offsetting Tree Planting</u> The Council recognise the importance of reducing the District's carbon footprint and carbon emissions by from <u>new development...requirements above that required by the Building Regulations</u> is financially challenging for new development in the District. To enable the Council to take a proactive approach to mitigating the impacts of climate change, a carbon offsetting fund will be established <u>tree planting is</u>

Ref	Page	Policy/ Paragraph	Main Modification
			<u>seen as an efficient and effective way of managing carbon emissions, whilst enhancing quality of place, reinforcing the landscape character of the Sherwood Forest and North Nottinghamshire and contributing to other environmental benefits such as helping to manage air, water and soil quality.</u>
MM10.4b	164	10.1.13	<i>Change to:</i> Carbon offsetting <u>Tree planting</u> allows new developments to comply with local planning policy where it is not feasible or practical <u>make a meaningful contribution</u> to achieve carbon emissions savings at the development site <u>within the District</u> . <u>Major development will be expected to make provision for 5 trees per dwelling or per 1000sqm non residential floorspace. In the first instance, planting should take place on site to maximise carbon savings for new occupiers.</u> The planting of trees should incorporate a native species mix that is best able to adapt to climate change. Financial contributions will be used to contribute to 'offsetting' the carbon footprint of new development by funding carbon saving projects elsewhere in the District thereby supporting Council Plan⁴ ambitions and contributing to national greenhouse gas reduction targets³
MM10.4c			<i>Add new paragraph after 10.1.13:</i> <u>Where on site provision is not practicable in full, an equivalent financial contribution will be sought to maximise the contribution the District's woodland cover makes to carbon sequestration. This could be through a range of measures including new native tree planting and/or enhancement of publicly accessible ancient and veteran woodland in the locality. New planting will also be promoted at HS1: Peaks Hill Farm and HS13: Ordsall South and at other publicly accessible locations across the District, such as nature reserves where the benefits to the environment and to the public can be maximised. This would support Council Plan¹ ambitions to move towards carbon neutrality and contribute to national greenhouse gas reduction targets³.</u>

Ref	Page	Policy/ Paragraph	Main Modification
MM10.4d	165	10.1.14	<i>Change to:</i> In the short term, and to reflect Council Plan priorities ⁴ , Policy ST50 will use the financial contribution to deliver tree planting – based on 5 trees per new dwelling or per 1000sqm of non-residential floorspace – for the first 5 years of the Plan, as identified by the Infrastructure Delivery Plan 2021 ⁷ . The Local Plan and Worksop Central DPD are expected to provide for This equates to approximately 38,552 <u>17,505</u> trees <u>from major development site allocations</u> or 192,760 <u>560</u> carbon tonnes absorbed <u>saved</u> a year once complete <u>mature</u> . This thereby providing <u>provides</u> a reasonable balance between making a meaningful contribution towards achieving the Government’s target ‘to increase tree planting in the UK to 30,000 ha per year by 2025 and maintain these to 2050 to reach net zero emissions’ ¹⁸ , and maintain development viability. <u>Further detail will be set out in the Greening Bassetlaw SPD.</u>
MM10.4e	165	10.1.15	<i>Delete paragraph:</i> Through the review of the Local Plan, carbon offsetting priorities will be reviewed, to reflect national legislation, national planning guidance and local priorities. Further detail will be set out in the Greening Bassetlaw SPD.
MM10.4f	165	10.1.16	<i>Delete paragraph:</i> The planting of trees should incorporate a species mix that is best able to adapt to climate change. These trees will form new woodlands in strategic locations within the District, notably at HS1: Peaks Hill Farm and HS13: Ordsall South, and at the Bassetlaw Garden Village (see Policy ST4), where the benefits to the environment can be maximised.
MM10.5a	166	10.1.21	<i>In the first and second sentence:</i> The Environment Agency advises that areas identified as ‘Serious’ in the Water Stress Area Classification 2013 <u>2021</u> ⁹ , should be designated as ‘Areas of serious water stress’ for the purposes of Regulation 4 of the Water Industry (Prescribed Condition) Regulation 1999 (as amended). This includes the areas covered by <u>both water supply providers</u> Anglian Water, therefore the majority of Bassetlaw is an area of serious water stress.
MM10.5b	166	10.1.23	<i>In the first sentence:</i> Although the small part of the District covered by Severn Trent Water is not water stressed, <u>u</u> <u>Undoubtedly ...</u>
MM10.6	166	10.1.26	<i>In the first sentence:</i>

Ref	Page	Policy/ Paragraph	Main Modification
			features, is identified <u>are also considered</u> as being an efficient and attractive green measure <u>solution</u> to introduce climate change adaptation in a distinctive but relatively cost effective way, <u>and will be supported</u> .
MM10.7a	166	ST50	<i>In Part 1:</i> All proposals, including the change of use of existing buildings and spaces, should <u>be designed seek to reduce carbon and energy impacts in their design and construction in accordance with Policy ST35 improve resilience to the anticipated effects of climate change taking into account the design principles in the Bassetlaw Design Quality SPD and the Bassetlaw Design Code</u> . Proposals should incorporate, <u>where appropriate, the following</u> measures that address issues of climate change mitigation <u>and adaptation</u> through:
MM10.7b	166	ST50	<i>Change Part 1 a)-i) and add Part 2 a), c), e)-g) :</i> <ul style="list-style-type: none"> a) ensuring no <u>unacceptable</u> adverse impact on local air quality; b) directing development towards locations that minimise the need to travel and maximise the ability to make trips by sustainable modes of transport; c) incorporating passive and energy efficient materials and/or technologies where appropriate; d) requiring compliance with relevant national building standards such as meeting BREEAM very good-excellent standards; e) promoting the retrofitting of existing buildings, including incorporating measures to reduce energy consumption; f) providing for electric vehicle charging capability and charging infrastructure in new development, and/or providing infrastructure that supports car-free living, particularly in town centres; g) ensuring that major development makes an appropriate financial contribution to the Bassetlaw carbon offsetting fund; h) making best use of available opportunities to reduce the impact of climate change on biodiversity and the natural environment by providing space for habitats and species to move through the landscape and for the operation of natural processes to occur; i) <u>where possible</u>, minimising the use of natural resources over the development's lifetime, such as minerals and consumable products, by reuse or recycling of materials in construction, and by making the best use of existing buildings and infrastructure; <p>2a) designing layouts so that the orientation of buildings and spaces take the opportunity to maximise opportunities for solar gain;</p>

Ref	Page	Policy/ Paragraph	Main Modification
			<p>2c) adapting surface materials and drainage design to reduce the risk of flooding to land, property and people as a result of more extreme rainfall in accordance with Policy ST52;</p> <p>2e) using integrated water management systems to manage runoff and provide a non-potable water supply;</p> <p>2f) providing green/blue infrastructure, and where possible, retaining existing trees and woodlands to reduce the 'urban heating effect' during warmer summers; and</p> <p>2g) using urban greening methods within the design of new buildings.</p>
MM10.7c	167	ST50	<p>Part 2: All new development should be designed to improve resilience to the anticipated effects of climate change. Proposals should incorporate measures that address issues of adaptation to climate change through:</p> <p>b) using appropriate materials that enable buildings to ventilate efficiently by day and night;</p>
MM10.7d			<p><i>Add new criteria after Part 1:</i> <u>All new non residential development of 1000sqm floorspace or more will be required to meet the BREEAM very-good-excellent standards or equivalent.</u></p>
MM10.7e			<p><i>Add new criteria after Part 1:</i> <u>All new residential development in the District should promote water efficiency by meeting the tighter Building Regulations optional requirement of 110 litres/person/day.</u></p>
MM10.7f			<p><i>Add new criteria after Part 1:</i> <u>All major development will be required to make provision for 5 trees per dwelling or per 1,000 sqm of non residential floorspace on site, or if on site provision is not practicable then an equivalent financial contribution will be sought to enable provision of new native trees and/or the protection and enhancement of ancient and veteran woodland within the District.</u></p>
MM10.8a	168	10.2.4	<p>Delete last sentence: Elsewhere, micro to medium scale commercial renewable energy generation and community wind generation will be supported where they are consistent with relevant policies in this Plan.</p>
MM10.9	168	10.2.5	<p><i>Add second and third sentence:</i> <u>The green energy sector may be an appropriate part of the long term regeneration plans for the three power station sites at Marnham, Cottam (see Policy ST6) and West Burton because of each site's</u></p>

Ref	Page	Policy/ Paragraph	Main Modification
			<p><u>ability to provide direct connectivity to the national electricity grid via existing energy switching and/or transmission infrastructure. In these locations, proposals that are consistent with the new strategic policy, where relevant and Policy ST51 and the wider development plan will be supported however, this should not preclude the consideration of other uses, where consistent with other relevant policies in this Plan.</u></p>
MM10.8b	168	10.2.8	<p><i>Delete the sub-title and last sentence:</i> Area of Best Fit for Renewable Energy Development It states that plans should consider identifying suitable areas for renewable and low carbon energy sources, and supporting infrastructure, where this would help secure their development.</p>
MM10.8c	169	10.2.9- 10.2.17	<p><i>Delete paragraphs:</i> In Bassetlaw, when assessing the suitability of land for renewable energy development, developers should first consider whether the proposal could be located within the Area of Best Fit as identified by Policy ST51 and on the Policies Map.</p> <p>The Area of Best Fit focuses renewable energy development at the former High Marnham Power station, recognising the site's previous use for energy generation; and its ability to provide a significant opportunity for direct connectivity to the national electricity grid, via existing energy switching and/or transmission infrastructure.</p> <p>Additionally, this approach promotes the positive regeneration of an area of brownfield land whilst minimising likely associated impacts on the wider environment and nearby communities.</p> <p>The Area of Best Fit does not preclude renewable energy development elsewhere in the district nor does it mean that land within the area must be developed for renewable energy exclusively.</p> <p>On that basis, proposals within the Area of Best Fit should be guided by a comprehensive masterplan framework, a delivery strategy and phasing plan in accordance with Policy ST58. The masterplan framework should include all relevant technical assessments considered necessary to address site-specific issues relevant to the site such as relating to the historic and/or the natural environment. Together these will coordinate delivery of the site. Community consultation and Council approval will be required prior to submission of a planning application.</p>

Ref	Page	Policy/ Paragraph	Main Modification
			<p>In practice, there will be other parts of the District that will be suitable for renewable energy. The benefits of delivering increased renewable energy capacity will need to be assessed against any potential adverse effects. The type of possible impacts will vary depending on the technology being used, but the need to protect residential amenity is likely to be a common issue for many scheme types. Other considerations will include impact on the local environment or wider landscape, harm to sites of biodiversity value, impact on heritage assets and interference with telecommunications and aviation equipment.</p> <p>The District also has two other former power station sites; at Cottam (see Policy ST6) and West Burton. The Council recognise the significant regeneration that will need to be undertaken at both sites in the long term, which could include some form of zero carbon energy generation. Both are at different stages in the decommissioning process; on that basis the Council will continue to work with the landowners and site promoters to ensure that the opportunities for regeneration of both sites, and potentially zero energy generation, are maximised appropriately through the review of the Local Plan.</p> <p>As the number of renewable energy developments across the District continues to increase, the issue of cumulative impact will need to be carefully considered. Cumulative impacts can relate to landscape and visual amenity, bird populations and other wildlife, the historic environment or any other matter. Such impacts may be experienced through the provision of a new renewable energy development alongside existing or proposed schemes, and/or by the extension and intensification of an existing scheme. Policies ST40, ST42 and ST37 are particularly relevant when considering these issues.</p> <p>All proposals will be considered in terms of their impact on neighbouring land uses and the affected community. Developers should demonstrate community support through an appropriate developer led pre-application consultation or through the neighbourhood planning process, where applicable. This should demonstrate the community response, including from the relevant parish/town council, is positive overall.</p>
MM10.10a			<p><i>Add new paragraph after 10.2.8:</i> <u>Given the national and local recognition of the need to transition to a low carbon future, the Local Plan encourages wind energy within the district's energy mix, most notably to serve local communities.</u></p>

Ref	Page	Policy/ Paragraph	Main Modification
MM10.11b			<i>Add new paragraph after 10.2.8:</i> <u>Reflecting national policy, applicants for wind energy development involving one or more turbines will be expected to demonstrate how the local community has been involved in developing proposals, that the planning impacts identified by the community have been addressed, and that the submitted scheme has their support. In the first instance, the production of Neighbourhood Plans provides a meaningful opportunity to obtain local community support in the identification of suitable areas for wind energy as part of the Neighbourhood Plan process. The Greening Bassetlaw SPD, to be produced following adoption of this Local Plan, will also support this process.</u>
MM10.12c			<i>Add new paragraph after 10.2.8:</i> <u>As the number of all types of renewable energy developments across the District continues to increase, it is important that all proposals consider their impact on the affected community and neighbouring land uses. Developers should therefore demonstrate community support through an appropriate developer led pre-application consultation or through the neighbourhood planning process, where applicable. This should provide details of the community response, including that from the relevant parish/town council.</u>
MM10.13d			<i>Add new paragraph after 10.2.8:</i> <u>Additionally, the issue of cumulative impact will need to be carefully considered. National Planning Practice Guidance¹⁰ sets out what issues should be considered for different types of renewable energy proposals. But cumulative impacts can relate to landscape and visual amenity, bird populations and other wildlife, the historic environment or any other matter. Schemes should ensure that all of the relevant planning considerations for technologies are addressed by an assessment proportionate to the nature and scale of the proposal. This should include impacts experienced through the provision of a new renewable energy development alongside existing or proposed schemes, and/or by the extension and intensification of an existing scheme.</u>
MM10.14	170	10.2.18	<i>Change to:</i> <u>Where planning permission is required for renewable energy projects, this shall include a planning condition requiring the removal of associated infrastructure and the reinstatement of a building or restoration of land to its original condition or appearance, returning the site to an acceptable state</u>

Ref	Page	Policy/ Paragraph	Main Modification
			within three years of the equipment project becoming permanently-non-operational. <u>The details of site restoration are to be agreed with the Council prior to the development proposal being approved.</u>
MM10.15	170	10.2.20	<i>In the first and second sentence:</i> requires developers to provide evidence based assessments of power generation based upon actual <u>expected yield</u> rather than installed capacity. This is <u>to be used for monitoring purposes only and is considered necessary</u> to enable the Council to have a robust understanding of the district's contribution towards national zero carbon targets <u>some of which will come from small scale projects.</u>
MM10.16a	170	ST51	<i>Delete Part 1 and Part 2:</i> Development that generates, shares, transmits and/or stores zero carbon and/or low carbon renewable energy will be supported in principle at the Area of Best Fit at the former High Marnham power station site, as identified on the Policies Map as a result of the ability of on site development to connect to the on site national electricity grid infrastructure. Proposals for renewable energy development on land at the Area of Best Fit should deliver a scheme in accordance with an agreed masterplan framework, relevant supporting technical assessments, delivery strategy and phasing plan for the site in accordance with Policy ST58, and other relevant policies in this Plan.
MM10.16b	170	ST51	<i>In Part 3:</i> Outside the Area of Best Fit, d <u>Development that generates, shares, transmits and/or stores zero carbon and/or low carbon renewable energy including community energy schemes will be supported and expected to demonstrate an operational and/or economic need for the development in that location, and subject to the satisfactory resolution of all relevant site specific and cumulative impacts upon: that the scheme could have on the area, taking into account operational and approved developments, as well as any proposed intensification to operational or approved proposals. An assessment should address cumulative</u> a) <u>location, setting and position in the wider landscape, resulting from its siting and scale; and landscape impacts, as well as</u> b) <u>natural and heritage assets and their settings;</u> c) <u>air and water quality;</u> d) <u>hydrology and hydrogeology;</u> e) <u>the best and most versatile agricultural land; ecology;</u> traffic and transport;

MM6.8d	214	Glossary	<p><i>In Ancillary Use/Operations:</i> <u>A subsidiary or secondary use or operation closely associated with a clear functional relationship with the primary purpose of the site, the main use of a building or piece of land, is of a scale that is appropriate to that relationship, and would not result in an over-concentration that might affect the function and</u></p>																												

			<u>appearance of the area when considered individually or cumulatively with other existing or consented development on site.</u>
MM13.4	214	Glossary	<i>In Building Regulations:</i> Building regulations approval is required for most building work in the UK and are statutory instruments that seek to ensure that policies set out in the relevant legislation are carried out. Minimum standards for design, construction and alterations to most buildings. The regulations are developed by the Government.
MM13.5	215	Glossary	<i>In Character:</i> A term relating to Conservation Areas or Listed Buildings, but also to the appearance of any rural or urban location in terms of its landscape or the layout of streets and open spaces, often giving places their own distinct identity. The distinctive identity of a particular place that results from the interaction of many factors - built form, landscape, history, people and their activities.
MM13.6	215	Glossary	<i>In Community Facility:</i> Facilities which provide for the health and wellbeing, social, educational, spiritual, recreational, leisure, or cultural needs of the community. This includes; community centres, libraries, leisure centres, local shops, meeting places, sports venues, open space, cultural buildings, public houses and places of worship.
MM13.7	216	Glossary	<i>In Developer Contributions:</i> A financial contribution or land in kind payment Payments which are made secured via Section 106 legal agreement with to the local authority to help deliver infrastructure, which is required to make a development acceptable in planning terms. Also known as planning obligations
MM13.8	217	Glossary	<i>In Flood Risk Assessment:</i> An assessment of flood risk for within most a particular area development within flood zones 2 and 3 and should cover all relevant information in the Government's FRA site specific checklist. so that development needs and mitigation measures can be carefully measured. to make sure the development is safe and does not cause a flood impact to others up or downstream.
MM8.11d	217	Glossary	<i>In Green Gap:</i> Are defined as where significant development could adversely affect openness, appearance, functionality and therefore quality of these landscapes. <u>Land between settlements that have been identified as important in helping to define the character of settlements and in shaping the settlement pattern of the district, by providing a clear visual and physical break in the built environment.</u>
MM13.9	217	Glossary	<i>Delete Greenspace:</i> A collective term for green and open space, which may or may not be publicly accessible. This includes parks and gardens, outdoor sports facilities, allotments, playing fields, cemeteries and churchyards.
MM13.10	218	Glossary	<i>In Infrastructure Delivery Plan:</i>

			Identifies the existing infrastructure capacity in the district, implications of planned Local Plan growth to inform the site specific infrastructure requirements for infrastructure projects required to deliver the Local Plan and its policies including, physical, social and green infrastructure in the Local Plan. It also sets out outlining how and when it is anticipated that infrastructure will be funded and the mechanisms used to secure it. The IDP is a live document that the council will monitor and review on a regular basis to reflect the current circumstances and inform the development management process.
MM13.11	221	Glossary	<i>In Planning Policy Guidance:</i> Planning Policy Practice Guidance Regularly updated online <u>Government</u> guidance that accompanies the policies set out in the National Planning Policy Framework (see above). It provides additional detail about how different issues are expected to be addressed
MM13.12	221	Glossary	<i>In Primary Shopping Area:</i> Defined area <u>in a town centre</u> where retail development is concentrated.
MM13.13	224	Glossary	<i>Delete Town Centre Uses:</i> These are uses other than shopping that are commonly found in town centres, including, retail, social, leisure and cultural, housing, employment and other uses.
